

COVID-19 continues to keep us off track a little but hopefully in the fall we can get back into full force.

In January 2020 PVLGA Cares selected a charity and collected donations for The Perfect Place, an Adult Day Care Service. We originally had planned to purchase signage that would help people to locate them behind the Risen Savior Lutheran Church. With the Church's construction and city restrictions this was not going to be an affordable project for us. Instead, we opted to purchase something the participants themselves would get enjoyment from. We presented an Ashton-Drake life-like doll to Dr. Rose Saunders, Executive Director of The Perfect Place. The doll coos and has a heartbeat and the participants get joy and comfort from holding it. The center already has one doll but the person holding it doesn't want to let it go so another one was really needed. The day care is currently closed due to COVID-19 with hopes that it will reopen by August.
